**Speedy-Clean will not harm paint, metal,  
or wood, only Portland Cement.**

**Use to clean: concrete splash on siding, foundations, patios  
& wooden decks • ready-mix trucks, mixers, vehicles forms,  
molds, cement buggies • pumps • trowels and screeds,  
concrete saws • slip form pavers • augers and more!**

## HOW DOES SPEEDY-CLEAN CONCRETE DISSOLVER WORK?

SpeedyClean Concrete Dissolver works by attacking and dissolving the "glue," or Portland, in concrete. It deconstructs the bond between the portland and the other ingredients such as sand or gravel. It turns the material into a soft mush which does not require hazardous waste disposal.

The amount of time required for this process is strictly proportional to the thickness of the concrete being dissolved.

## DOES SPEEDY-CLEAN CONCRETE DISSOLVER CONTAIN ACID?

SpeedyClean Concrete Dissolver is acidic the way a lemon or an orange is. There is no muriatic or sulphuric acid in SpeedyClean Concrete Dissolver.

## HOW FAST DOES SPEEDY-CLEAN CONCRETE DISSOLVER WORK?

SpeedyClean Concrete Dissolver normally works in 20 to 45 minutes depending on the application. The amount of soak time will really depend in the thickness of the material trying to be removed. The minimum should be about 10 minutes but thicker materials may take 30 or more and repeated applications. It is important to keep the material wet with the concrete dissolver and not let it dry.

***Get great results with Speedy-Clean by using in conjunction with a high-pressure cleaner.***

## APPLY SPEEDY-CLEAN CONCRETE DISSOLVER WITH FOAMERS

SpeedyClean Concrete Dissolver can be applied to equipment using a foamer for best results, creating a foam allows Speedy-Clean to stick to the concrete and break it down much more effectively.

Manual compression foamers that will work anywhere. Ideal for application of cleaning chemicals on plant-equipment. Gives solid 'Snow Foam' that clings to surfaces to help chemicals work.

SpeedyClean is mixed with water to the desired strength and applied to the item concerned using for example a handheld foamer.

To clean off the item use a high-pressure cleaner or with water and a stiff brush. In cases where there is heavy build-up, the treatment can be repeated.

If you have any enquiries in regards to Speedy-Clean feel free to contact Speedcrete for more information or to arrange a demonstration.

#### INFORMATION:

Speedy-Clean® CONCRETE DISSOLVER is a liquid compound specifically formulated to dissolve built-up cement on tools and equipment associated with the concrete ready-mix industry.

The highly-concentrated formulation is compounded to maintain sufficient acidity to dissolve hardened cement.

Use to dissolve cement from mixers, hopper areas, inside the back bins, rear support structures, chutes and it removes old rust and oxides.

Non-flammable, will not harm paint, and is BIODEGRADABLE.

#### DIRECTIONS:

Apply Speedy-Clean® CONCRETE DISSOLVER undiluted, with a sprayer or conventional brushing. Allow to remain on cement for at least 20 minutes, treated cement may be left to react overnight. Heavy build up may require additional applications.

Speedy-Clean® is always most effective when brushed, thereby removing already neutralized cement at the same time exposing un-neutralized cement to Speedy-Clean®.

Should be applied undiluted to DRY cement.

Always wear protective clothing (rubber gloves, eye shield).

#### DANGER:

Can cause severe skin burns and eye damage.

#### FIRST AID:

**EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**SKIN/HAIR:** Wear protective gloves, protective clothing eye protection/face protection. Take off immediately all contaminated clothing. Rinse skin with water.

**INHALATION:** Do not breath vapour/spray. Remove person to fresh air and keep comfortable for breathing.

**INGESTION:** Rinse mouth. Do Not induce vomiting.

#### STORAGE:

Store locked up.

Dispose of contents/container in accordance with local regulations.

**SPEEDY-CLEAN®**

## CONCRETE DISSOLVER

Biodegradable ~ Eco Friendly

*New Powerful Formula*

NO HYDROCHLORIC  
SULFURIC  
MURIATIC ACID

☑ *Non fuming*

☑ *Non hazardous to equipment*

☑ *Powerful, fast & efficient*

MANUFACTURER CANNOT GIVE WARRANTY SINCE  
WE HAVE NO CONTROL OVER USE OF MATERIAL.
