

GRINDING WINGS

DEPENDING ON THE TYPE OF FLOOR YOU HAVE TO GRIND, THERE IS ALWAYS A SUITABLE DIAMAG TOOL. DIAMAG HAS CREATED A UNIQUE COLOUR CODED SYSTEM SPECIALLY DESIGNED SO YOU KNOW WHICH TOOL TO USE DEPENDING ON THE HARDNESS OF THE SURFACE.

The DIAMAG Premium wings listed below are designed to be fitted on triple headed grinders with the patented DIAMAG quick release system. Each wing has 2 segments with a specific "dot" design: each segment is covered with little dots which attack the floor first, thus letting the diamond open much faster for optimized grinding efficiency. DIAMAG wings are delivered in sets of 9 pieces (with screws and hexagon key).
