ASPHALT 30

Speedcrete introduce The Barikell Self Propelled 30 concrete and asphalt floor cutter, with a 35hp Vanguard Briggs and Stratton petrol powered engine. If you require the cutting of concrete slabs, portions of concrete floors or road cutting this cutter is going to get the job done for you.

This floor cutter is used to create deep cuts in concrete and asphalt floors and can be used to cut chunks of concrete into small pieces for safe and efficient removal.

This floor cutter can make deep cuts in concrete and asphalt floors. The diamond-coated disks used with this machine can range from: 400-800mm, this allows for a Maximum cutting depth of 300mm which can be achieved by cutting depth adjustment with control lever.

BARIKELL

***This machine works best with diamond-coated disks:
300 – 350 – 400 – 450 – 600 mm as standard.
However, this model has been adjusted to allow for
an 800mm disk which gives you a maximum cutting
depth of 350mm.***

***Automatic progress and reverse.
Steel water tank capacity of 100 Ltrs.
Cutting depth adjustment with control lever.
Weight: 348kg***
